## STATE REPORTS 17 DIE IN WEEK END MISHAPS

### Alice Longworth Says

(Special To The News)  
CINCINNATI, July 6.—Doctor Raymond Moley, former chief of the brain trust, is the latest important defection from the New Deal camp. Like Mr. Lewis Douglas and other erstwhile administration officials, he has revolted against the absurdities of the more abundant buncombe. In his recent Boston speech he makes an eloquent plea for something more than a mere breathing spell for business. Doctor Moley's address is generally accepted as a comprehensive reply to the president's latest elaborating of business in his Philadelphia speech.

Dr. Moley quoted Browning: "When the prophet beats the ass, the angel intercedes." The former assistant secretary of state, in the role of angel, intercedes with authority. He was one of the originators of the New Deal, and when he says it is time to let up on honest business, Mr. Roosevelt might do well to pay heed.

### PA NEWS OBSERVES

While firecrackers were officially banned in New Castle, there appeared to be a wider use of them over the Fourth period than for several years.

Judging from the quantities of blossoms, there should be a huge crop of elderberries in Lawrence county this summer.

Pa News noted a party of men having a sport thrill by use of a motorboat on the Shenango river near the Harbor bridge.

Hay harvest is already under way on some of the farms of Lawrence county. Wheat cutting will soon be the order of the day on the farms.

When one has a dog like the pet of Jack Colnot, son of City Master Mechanic Charles Colnot, he does not need to go fishing. The youth has been camping with relatives just beyond Lakewood, along the Neshannock, and the other day, the dog dashed into the weeds along the edge of the stream and pulled out as nice a bass as has been caught in that vicinity this year. He caught the finny specimen in shallow water before it could get out where it was deep enough to get away.

Frank Phillips brought a helgramite to the office of The News this morning. The bug is such a fierce looking object that it occasions wonder in the mind of a person on seeing one for the first time. It is perfectly harmless, however. It has lacy wings like a fly, with two pinners about three-quarters of an inch long projecting out in front. The helgramite is about three inches in length.

Weather conditions today indicate a siege of real old fashioned summer is high.

### Seventeen Killed In Pennsylvania During Week End

Most Of Tragedies Over Fourth Period Occur On Highways

**BOY IS DROWNED AT ZELIENOPLE**

Two Boys On Bicycles In Fatal Collision—Fire-works Cause Injuries

(International News Service)  
SEVENTEEN persons lost their lives in accidents over the Fourth of July week-end in Pennsylvania, although fireworks casualties were held to a minimum as a result of "safe and sane" campaigns in Philadelphia and Pittsburgh, an International News Service survey showed today.

As usual, motor accidents levied the heaviest toll and were followed by drownings.

Patrick Regis Donoghue, 8, was drowned in the Connoquessing creek, Zelienople, while vacationing with his family.

Motor mishaps took the lives of five persons in Western Pennsylvania. A young woman died when she fell from an auto in Pittsburgh. Police are investigating the story told by her companion, Julius Jastrzebski, 28, that his fiancée, Bessie Colburn, 25, leaped from the car. He could give no reason for her act.

### Mrs. Rogers Loses Her Court Fight

Court Denies Her Petition To Set Aside A Waiver Of January, 1934

**COURT RULES SHE WAS NOT DECEIVED**

(International News Service)  
RIVERHEAD, N. Y., July 6.—Mrs. Pauline V. Rogers, widow of Col. Henry H. Rogers, today lost her court fight to win her full dower rights in her husband's estate.

Her petition to set aside a waiver she signed in January, 1934, in which she agreed to accept the provisions of Col. Rogers' will, was denied by Surrogate Robert S. Pelletreau.

In a bitterly contested action, Mrs. Rogers charged she was suffering from injuries in an automobile accident and was in no condition to exercise her best judgment. She was not fully informed as to the effect of the waiver on her rights, she also alleged.

Mrs. Millicent Rogers Balcom, daughter of Col. Rogers and legal guardian of her son, Peter Salm, major beneficiary of his grandfather's fortune, joined with the executor in contesting the widow's application.

**Not Deceived.**  
The court ruled Mrs. Rogers had not been deceived when she signed the waiver which she claimed deprived her of a one-third share in the \$17,000,000 fortune of the Standard Oil official.

"In my opinion," Pelletreau declared, the disputed waiver "was lawfully obtained without fraud, misrepresentation or misunderstanding, nor were any material facts withheld from the petitioner when she executed same."

Under Rogers' will, the estate was divided into three trusts, one for the widow, one for his daughter, Millicent, and one for Millicent's son. Mrs. Rogers' trust yields approximately \$130,000 annually but upon her death the principal goes to Millicent and Peter Salm.

### FALLS FROM BICYCLE; BOY HAS ARM BROKEN

Clare Book, aged 14, son of Thomas Book, of 725 Croton avenue, suffered a fracture of the right forearm, about noon on July 4th, when he fell from a bicycle in the vicinity of his home. He was taken to the Jameson Memorial hospital for treatment, returning to his home on Sunday.

### District Escapes Serious Accidents Over Fourth Period

There should be a long list of accidents to record today. A list of small boys with burned fingers, a collection of broken arms, and a lengthy account of automobile accidents. There usually has been, but not this year.

Safety First scored a smash hit over the Fourth of July, even with the added day of holiday.

The automobile accident list is lighter than most ordinary week ends, the fireworks accidents are non-existent or nearly so, and from a general survey of Lawrence county one gets the idea that the Fourth was celebrated in a big way but not a dangerous way.

**Traffic Heavy**  
Traffic was heavy on all highways. Starting Friday afternoon

and continuing until late Sunday night thousands of cars went through New Castle bound for vacation spots and with a few bent fenders and slightly damaged temples no accidents were reported.

Perhaps the worst accident happened when a ten ton load of plate glass bound from Butler to Cleveland upset on the lawn of Senator George T. Weingartner on the Butler road. The accident was not caused by a collision but appeared to be caused by faulty loading. Most of the glass was broken and the truck was badly damaged.

It was a picnic Fourth judging from the Slippery Rock valley. From Harlansburg to Wurtzburg the valley was filled with picnickers

### Treasure Hunt Grows Feverish Near Tipton, Ia.

Report Finding Of More Than \$200,000 In Buried Coins And Securities

(International News Service)  
TIPTON, Ia., July 6.—A feverish treasure hunt, spurred by the fact that more than \$200,000 has already been discovered, was resumed today on the farm of the three bachelor Iwer's brothers, who followed each other in death.

Discovery of \$112,000 in gold coin, gold and silver certificates, and securities, most of it in an iron box buried in an old machine shed, was revealed Saturday, and \$88,000 of similar treasure had previously been found.

**Large Type Bills.**  
The new search was encouraged by the fact that only gold, large-type bills were found, and the brothers were known to have handled large sums since the smaller currency came into use. They used banks very little. The last of the brothers, Henry, died May 30.

It was one instance in which a popular fable came true. For years, the story was told that three woman-hating brothers, who obtained

### Observe Silver Jubilee Of Rev. Fr. A. P. Scholz

Twenty-five years of service to his church were celebrated Sunday, July 6, in a manner that will be a pleasant memory to Rev. Fr. Anthony P. Scholz, of St. Margaret's church, for many years to come. A solemn high mass in the morning and a surprise reception and dinner in the afternoon marked the day as one of the high spots in the career of Fr. Scholz.

At 10:30 in the morning a solemn high mass was celebrated with Fr. Scholz as the celebrant. Assisting him were Rev. Fr. Joseph A. Doerr, of St. Joseph's, as deacon; Rev. Fr. William F. Galvin, of St. Mary's, as sub-deacon, with Rev. Fr. Leo Sch-

ringer, of St. Norbert's church, Overlook, Pittsburgh, a lifelong friend of Fr. Scholz, preaching the sermon.

**Surprise Visit**  
Later in the day 40 priests of Western Pennsylvania surprised Rev. Scholz by dropping in to wish him well and for a time Fr. Scholz was embarrassed as he thought of the difficulties he might have in providing dinner for such a crowd. The women of St. Margaret's had already provided for that however, and a bounteous dinner was laid in the basement of the church.

### Sought In Showgirl Slaying

MR. AND MRS. FREED  
Identified through a picture as being the woman who visited Miss Audrey Vallette shortly before the showgirl was shot to death in her Chicago hotel room, Mrs. Ruth Freed, shown above with her husband, was wanted for questioning by police. In reconstructing the slaying of Miss Vallette, 31, twice married and twice divorced descendant of a pioneer Chicago family, Capt. Andrew Barry said he believed the crime was one of vengeance. Mrs. Freed's husband and the victim had been friendly for months, it was alleged.

### Surrender Of Freeds Is Indicated Today

(BULLETIN)  
(International News Service)  
CHICAGO, July 6.—After being the object of a police search for three days, Edward Greed, night club manager and once connected with the Capone syndicate, today surrendered for questioning in the murder of Audrey Vallette, blond playgirl of the bright light district.

CHICAGO, July 6.—A thus far implicit police investigation of the murder of a glamorous platinum blonde party-girl was expected to make headway today with the surrender of Mrs. Carmella Freed and her husband, Edward.

The Freeds have been in hiding since last Thursday when Audrey Vallette was shot to death in her luxurious apartment in a Northside hotel as she dawdled over a mid-afternoon breakfast tray.

Hotel employees have identified a photograph of Mrs. Freed as that of the woman who called at the Vallette apartment just before the shooting, and was seen fleeing through the hotel lobby immediately after the shooting.

Attorney Abe Marovitz, who has been in touch with Fred, partner in a Northside night club, told police he expected his client to surrender for questioning today.

Police are certain the "Eddie" and "E" frequently mentioned in the murder victim's diary and for whom she professed a profound passion, is Edward Freed.

### Wheat Prices Resume Climb

Intense Drought In Midwest Sends Wheat Prices Up

(International News Service)  
CHICAGO, July 6.—Spurred on by the drought throughout northwest and midwest and pronounced strength at Liverpool, grain prices on the Board of Trade soared to the limit today, wheat advancing five cents, corn four cents and oats three cents.

July wheat sold up to \$1.05 3/4, while December reached \$1.07 1/2. July corn sold up to 76 1/8-8, and September oats reached 37 1/8-8.

No rain of consequence occurred in the arid northwest area over the holiday, while a blistering sun continued to sear the corn belt.

### League Will Lift Sanctions, July 15

(International News Service)  
GENEVA, July 6.—Complying with a resolution adopted by the League of Nations assembly, the co-ordinating committee of 52 nations voted today to lift the sanctions imposed upon Italy last October.

The economic and financial penalties, clamped down when Il Duce's legions invaded Ethiopia, will cease July 15.

As the committee opened its public session, Argentina's delegate stated he would agree to the vote for lifting sanctions because it was the "general wish."

But he insisted upon non-recognition of Italian annexation and expressed regret Haile Selassie's resolution concerning annexation of Ethiopia by Italy—which was shelved by the league—had not been submitted to the assembly.

The co-ordinating committee adopted the following resolution: "We propose that governments which are members of the league abrogate on July 15 the restrictive measures which they took."

Augusto Vasconcellos, chairman, thanked the members of the committee for their confidence in him. France and Britain jointly asked the members to present figures regarding the operations of sanctions in order to gauge their efficacy for possible future use.

### Amusement Ride Fatal To Youth At Toledo, Ohio

(International News Service)  
TOLEDO, O., July 6.—An inquest was to be held today in the death of an unidentified youth about 17 years old who spent his last time for a thrill ride on a roller coaster here and was killed when he leaped or was thrown from the speeding car.

Coroner W. M. Shapiro said he believes the boy fell when he stood up at a turn. Many passengers in cars ahead were unaware of the tragedy until the ride ended.

There was no money in the boy's clothes and they bore no identification marks. He wore a small Lutheran emblem.

### Troop Arrives Home Saturday

Return From Two Week's Stay At National Guard Encampment Where They Won Honors

Troop F, 103rd Cavalry PNG, returned home from their two weeks stay at Indian town gap, the National Guard encampment, on Saturday morning at 2 o'clock, the troop members and horses standing the two week's grind in excellent fashion.

With the exception of Private Harry Davidson, of Bessemer, who is still in the hospital at Harrisburg, following an operation for appendicitis, the members of the troop came back in splendid physical condition. Davidson is expected to be able to leave the hospital this week, and will return home by train.

**Made Trip In Trucks**  
The trip to and from camp was made by the troop in motor trucks of the 103rd Quartermaster Corps. They left Indian town Gap shortly after noon on Friday July 3, getting in here after midnight.

The horses and equipment arrived in at 5 o'clock on the evening of the 4th, and were unloaded at the West Side depot of the Pennsylvania R. R.

The encampment was hard on the mounts of some of the other troops. Capt. George F. Mitchell states, five horses being lost on the first day

### Gets Huge Bass In Bessemer Lake

Fisherman Pulls Out 21-Inch Bass While Angling On July 4

Lake Bessemer isn't a large lake, neither is it a well known lake. As a matter of fact it isn't a lake at all but a big pond which was formed in one of the abandoned quarries in Bessemer.

But lake or pond it has some real fish in it and on Saturday, July 4, Castle Groves pulled out a 21-inch bass weighing four pounds, which would be a good catch for Lake Whetumayacallit in Canada.

Mr. Groves was fishing with William Hewitt and William Glassel. They had already taken out three 12-inch bass and a 12 1/2-inch yellow perch when Mr. Groves took first place with the whopper mentioned above.

### Few Casualties Here On Fourth

Accidents Resulting From Fire Crackers Here Were Few Reports Indicate

While there was a greater amount of fireworks shot off here on the Fourth than in several years, the number of casualties was extremely light, reports of the hospitals and doctors reveal.

Only one man was hospitalized as a result of the celebration. James Sample, aged 35, of New Bedford being struck in the face with a piece of a tin can, in which he had placed a giant cracker. He was brought to the hospital at 8:30 a. m., suffering with lacerations about the nose. His condition is not serious, it was stated.

Local doctors treated a few people for burns and minor lacerations resulting from fire crackers, but on the whole, the day was spent in a sane manner.

There were no serious automobile accidents, people seeming to take greater care with the increased amount of traffic.

### Arthur Mometer

There ought to be plenty of burns it would seem, powder marked fingers and cuts here and there, but all of the burns are from sun it appears, shoulders and noses and backs that were bare. For Fourth of July should bring plenty of accidents, few were reported and minor at worst, which proves that it pays to observe rules of safety, there is something to that line "try safety first". And folks that were possible cases for doctors, are able to work and to run and to play, which is much, oh much better than what the Fourth once was, weather is warm, and past ninety today.

# FIRE RUINS IOWA VILLAGE

## Firecracker Is Blamed For Blaze

Small Girl Celebrating Fourth Starts Million Dollar Conflagration In Town

### STATE MILITIAMEN IN CHARGE OF TOWN

(International News Service) REMSEN, Ia., July 6.—A firecracker tossed by a little girl set off a million dollar pyrotechnic display, authorities estimated today as they surveyed the charred ruins of this fire-stricken village.

Under direction of state militiamen, rushed here from Lemars yesterday to maintain order, prevent looting, and aid in fighting recurring outbreaks of the flames, rehabilitation work was begun today.

Fifteen families are homeless and business establishments covering four square blocks are in ruins, their stock of merchandise charred and water-soaked.

**Buildings Burn**  
The devastating fire broke out Saturday night when a little girl, whom officials refused to name, playing in a tent next to Dunn's Cafe, set off a firecracker. The 'cracker set fire to the tent and the flames quickly spread to nearby buildings, dry as tinder and intense heat of the past few weeks. Believing under control, it broke out with increased intensity yesterday and with the mercury at 108 degrees.

Property damage was variously estimated from \$500,000 to \$1,000,000 but authorities today said they believed the latter figure would most closely approximate the loss.

**Now Senior Troop**  
Troop F is now the Senior Troop of the cavalry units of the state national guard, due to changes in personnel, and Capt. Mitchell is the oldest officer. For this reason Troop F, was chosen for many duties of an honorary nature.

The troop expects to receive a cup for having the best line in parade formation. The boys seemed to live up to their appearance, having received new uniforms just before going to camp, and they made an imposing appearance.

The troop will meet Wednesday evening at the Armory when the equipment will be checked over and the loose ends from the encampment will be picked up.

Captain Mitchell was loud in his praise of the conduct of the men while at camp, stating that it was the best troop which has ever gone out of the city.

## Pioneer Citizen Taken By Death

Samuel Scott McCleary, Long Connected With Industries, Dies At 85

Samuel Scott McCleary, 85, one of the pioneers connected with the iron and steel industry in New Castle, died Sunday morning at his home, 112 West Grant street. Mr. McCleary retired from active work with the closing of the Carnegie steel mills some years ago. During the past year he had been in failing health, suffering from heart trouble, which was the final cause of his death.

Mr. McCleary was the son of John Newton and Mary McCombs McCleary. He was born in New Castle, December 25, 1851, in a house which stood between the Fountain Inn and Jefferson street. His grandfather, Samuel McCleary, was one of the pioneers of New Castle, coming here in 1804, acquiring a large tract of land in what is now West New Castle. The old McCleary home stood near the present site of the Lawrence Ice and Storage plant on West Grant street. He also built the "old stone corner" which stood on the site of the present Y. W. C. A. building.

Early in life Samuel Scott McCleary became identified with what was known as "the old mill" in the capacity of millwright and general superintendent of construction. Later he was employed in a similar capacity with the Carnegie Steel Company. He was with the Carnegie company for 30 years and was one of the best known and most popular men in the company's employ.

During his entire life Mr. McCleary took an active interest in the civic and industrial progress of New Castle. He could always be counted upon to do his part in any undertaking.

He was a member of Mahoning Lodge, F. and A. M., and was a 32nd degree mason. He was a consistent member of the First Christian church.

On September 7, 1875, he married Nancy Agnes Reed, a daughter of Samuel and Mary Reed, who preceded him in death about 18 months ago. He is survived by the following children:

Samuel R. McCleary, North Shenango street; Mrs. Robert J. Tully, Clairton, Pa.; Mrs. Daniel B. Wolcott, 112 W. Grant street, and Mrs. Charles Dickinson Mills, Clairton, Pa.

He is also survived by one sister, Mrs. George L. Kepler, of McCleary avenue, nine grandchildren and three great-grandchildren.

Funeral Wednesday at 2 p. m. from the family residence, 112 West Grant street. Services in charge of Rev. W. W. Sniff, assisted by Rev. Merrill Cadwell, pastor of the First Christian church. Interment in Oak Park cemetery.

He then went to St. Joseph's church in Bradock, and from there came to New Castle as pastor of St. Margaret's church in 1930. He is the chaplain of the local Catholic Daughters of America, and director of the St. Vincent de Paul Societies of Lawrence county.

Visiting priests who participated in the jubilee festivities for Fr. Scholz included the following: Rev. S. J. Huver, Pittsburgh; Very Rev. Sigmund Cratz, O. M. Camp, Pittsburgh; Rev. D. Austin, O. tors shouted for Col. Francois De La Roque, leader of the Fascist Croix De Feu, the majority appeared to be spurred by patriotic motives against the left wing surge in France.

Fresh demonstrations broke out repeatedly by platoons of mobile guards, with rifles and steel helmets, arrived. But even they, aided by police swinging black-jacks, failed to suppress the crowd.

Throughout Paris left wingers staged counter demonstrations, riding around in taxi-cabs and trucks, raising their fists and singing the Communist Internationale.

Unmolested by police, the Reds encircled the Arc de Triomphe, while 100 yards away the "flics" attempted to drive nationalists off the Champs Elysees. Among those arrested were many reserve officers with highest war decorations.

### DICKEY-CRAWFORD HOME WEDDING FRIDAY

Among the many lovely home weddings of the early July season was that which took place Friday evening at the residence of Mr. and Mrs. Roy W. Dickey, Kathryn street, when their daughter, Miss Laura Dickey, became the bride of Lloyd E. Crawford of this city, son of Mr. and Mrs. Grant Crawford of Zellenople. The event was carried out in a most impressive and dignified manner, with the vows being exchanged in the living room, before the beautifully embanked mantle where ferns, palms and cut flowers were artistically arranged. In the presence of the immediate families of the young couple, Dr. C. B. Winger, pastor of the Central Presbyterian church, officiated with the single service at 7:30 p. m.

The bride was attired in a white tailored crepe ensemble with shoulder bouquet of pink roses and baby's breath, and accompaniments to interest. An additional note of interest was the fact that the date also marked the first wedding anniversary of their attendants, Mr. and Mrs. Robert S. Dickey of English avenue, he being a brother of the bride. She wore her wedding gown of a year ago, a blue chiffon frock with tailored lines and shoulder corsage of yellow roses.

Supplementing the ceremony, a wedding dinner of beautiful appointments was served in the dining room at a table attractively set with the traditional wedding cake, and a color theme of pink and white prevailed. As the bride was about to cut the cake, the attendants, Mr. and Mrs. Robert Dickey, were agreeably surprised when another large cake, aglow with one candle, was presented to them, honoring their wedding anniversary. An informal reception was held in the evening for friends and relatives.

Mrs. Crawford is a graduate of the local high school in the class of '34 and the groom is associated with the Holmes Construction company of Indiana. At present he is located in New Castle. The couple will make their residence for the time being with the bride's grandmother at 8 Worthington avenue, dispensing with a wedding trip until later.

A large collection of lovely gifts has been received by the bride and groom, testifying to the esteem in which they are held.

Among the dinner guests, included the bride and groom, Mr. and Mrs. Roy Dickey, Mr. and Mrs. Robert S. Dickey, Grace Dickey, Mary Elizabeth Dickey, John Cook, Dr. C. B. Winger, Mrs. David S. ### FIVE WILLIAMS AT PRITCHARD REUNION

William is a popular name, it seems, in the Pritchard family, for at the annual reunion held on July Fourth at Mill Creek park, Youngstown, there were five William Pritchards present.

The eldest, from whom all of them descended, was William Pritchard, of Laurel avenue, this city, his son, William who is a school teacher in Youngstown, Sheriff Edward Pritchard's son, William, another elder William, from Kingstown, Pa., and his son, still another Bill.

There were about 40 guests attending, the congenial group enjoying an excellent dinner menu followed by much afternoon of sports among which baseball featured. The eldest William Pritchard gave a short talk in which he said that when he came to this country from Wales, little did he think that he would be the proud father of 13 children, nine boys and four girls, six of who are living, three boys among whom is Sheriff E. D. Pritchard and three girls. There are 17 grandchildren and two great grandchildren.

He was most happy to have the family all together again this year, and going on, he voiced the thought that while his life had been full of "sweets and sorrows", he felt, the former greatly overshadowed the latter. He extended a sincere wish for the others that they would all have as good health as he has had during his lifetime.

With William Pritchard from Kingstown, were his wife and their family.

The bride was attired in a yellow flowered dress, with white accessories, and she wore a corsage of gardenias. Her attendant wore pink crepe, with white accessories, and a corsage of Talismans roses.

Later in the evening, the bridal party returned to New Castle, and from here the newlyweds left on a short motor trip over the holiday. They will reside at the bride's home for the present.

## NATURE DIDN'T CO-OPERATE

NATURE has proved a rather poor New Dealer in its co-operation with the farm relief program. Hardly was the elaborate scheme perfected in Washington to boost farm prices by dickering with farmers to cut production, than the big drouth came. There is no better scarcity producer than a drouth.

All through the drouth of 1934 and for months after, Secretary Wallace was kept busy explaining that it was all for the best that the 6,000,000 little pigs were slaughtered; there wouldn't have been corn enough to feed them on account of the drouth. But a lot of city folks who like pork chops complained of rising prices.

And then came the plan to regulate production of potatoes. Of course it fell through and went the way to oblivion along with the AAA, but people in towns who have to pay the average price of a bushel for a small quantity of potatoes in a paper sack, may add potato control to their memories of the slaughtered pigs.

And Secretary Wallace's explaining staff already is busy. The potato control business didn't really make the high prices for spuds. It was some measly moth in the southern states and the habit farmers of Michigan have acquired of getting rid of their potatoes early in the season before southern potatoes appear on the market.

Well, Madam Nature never was much of a politician.

## FAVORITE DIVERSION

The National Recreation Association has been trying to find out what form of leisure-time activity makes the greatest appeal to the average American. A questionnaire was prepared and sent to 5,000 people of all sorts—housewives, teachers, social workers, truckmen, janitors, clerks, barbers, and street cleaners.

These were asked to check on a list of 94 recreations those they preferred and made most use of. Reading newspapers proved the favorite diversion of nearly 4,000.

This revelation of the taste of the majority of people indicates the success of the newspapers in estimating popular interest, and justifies the judgment in providing in the newspaper departments giving information, culture, amusement and entertainment for old and young in every occupational group and social level.

## THE WONDER WORKER

There is probably somebody in this great country who does not know that "advertising pays," but if there is he, or she, is woefully ignorant of American business and commercial achievement. Those two words, "advertising pays," form one of the fundamental rules of business and joined with "service" spell success to the business man who observes them.

What has been accomplished in the past through advertising is being duplicated or excelled today by national manufacturers and local merchants. A new fabric is made famous and given a national demand almost overnight by widespread advertising. A new automobile model builds up a national demand for itself before it is placed on display with the aid of extensive advertising. In every community there are old merchants who have retained a thriving trade through many years by regular and heavy advertising or who are building up prosperous businesses in new stores by the old rule "advertising pays." Advertising has become just as essential to business success as service and store-room.

## OFF TO CAMPS

This is the season when boys and girls go to camps, both public and private. The railroads are crowded with them and private automobiles take the rest. The Boy and Girl Scouts are on the move, the schools are represented heavily, the camp conductors, who year after year live more or less in the open at the head of enterprises that are a vast relief to mothers and fathers of well-to-do families that see in camps a solution of many home problems, are on the job.

To some camps boys and girls go year after year. Some who begin as paying guests grow into camp leaders or craft instructors. Public and private school teachers often are house "mothers" in July and August. In them all the principle of self-reliance is stressed; taking care of oneself under all conditions is the primary object. Boys and girls learn how to fend for themselves under outdoor conditions or during the life in tents.

Never is there a dearth of enthusiastic campers. From the most modest camps to the most expensive, the spirit is the same. There are camps based on water sports, based on land exploration, based on woods life. From none do the young people return unbenefitted.

## STUDY OF MARRIAGE

It will be news to most that in connection with the wide development of sociological courses the formal study of marriage is included in more than 600 normal school, college and university curriculums. This is not the study of the history of marriage as an institution, but rather as an approaching problem in the life of the individual student. Professor Ernest R. Groves of the University of North Carolina, a pioneer in this teaching, long has contended that "an increase in happy, wholesome marriage is the only permanent solution of the divorce problem."

As to the content of these courses on how to be happy though married, or how it is possible to stay married because happy, we are profoundly ignorant. It is presumptive, however, that the fair co-ed would be instructed that after a hard day at the office is no time to tell John he ought to rush out and cut the grass before the Smithsons arrive for dinner and bridge. Conversely the prospective mother of the house should be made to understand that because the potatoes are cold is no reason for slinking out to the garage to seek permanent succor from care by the carbon monoxide route.

Robert Louis Stevenson in his "Virginibus Puerisque," which ought to be compulsory reading in any course on marriage, argued for at least a partial similarity of tastes. He put some humbler qualities ahead of brilliance as essential in one's mate, though he did not disparage a sparkling intellectuality. Stevenson felt it was of far greater importance that each party to the marriage contract appreciate the sense of humor of the other, so that an empty stare should not greet laughter or laughter greet tears. He sensibly reminded prospective brides and bridegrooms that "a quiet evening together before the fire happens a deal oftener in matrimony than the presence of a distinguished foreigner at dinner."

The rain falls alike on the just pressed suit and the unjust.

When England Marched In.  
The Thing We Do Well.  
To Make Railroads Pay.  
Our Complicated Future.  
by ARTHUR BRISBANE

PARIS—Not everybody, reading England's pious protests against Mussolini's conquest of Ethiopia, realizes that England once made a similar trip on her own account and most successfully.

In 1867, the Ethiopian ruler, King Theodore, had locked up the British Consul, Captain Cameron, and other Europeans in his fortress at Magdala. England marched in, carrying dismounted cannon on the backs of elephants over the mountain passes. Britishers know how to treat "natives," and it is said, "the tribes on the route were admirably handled and supplies handsomely paid for, so that not a shot was fired on the 400 miles up to Magdala or on the return."

ETHIOPIA'S FORTRESS, Magdala, was taken, Lord Napier, in command of the British, on reaching the fortress hill found King Theodore stretched out on his back, dead by his own hand. He had killed himself in despair, rather than surrender to the British.

You will observe that, whereas Mussolini accused the late Ethiopian government of killing many Italian subjects, no British subject was killed back in 1867—nevertheless, England marched in, and King Theodore died.

This shows the world that it is more serious to imprison an Englishman than it is to shoot an Italian, at least in the estimation of England.

Mussolini does not agree.

FRED JENNY, from Boise City, Okla., beginning his letter, "I am just an old hill billy out here in the dust bowl," adds, "I have been a constant reader of your column for a number of years," then quotes Goethe's saying, it is not things we like to do that make life blessed, and asks an opinion about it.

If Goethe said that, he was mistaken. It is doing what we LIKE TO DO that makes life worth while.

"Ford, Edison and Beethoven were doing the work that they like to do."

No man does his best unless he does what he likes to do; that is what he can do best. Happy he who finds that kind of a job in life. Why do mothers, with joy, care for their children?

### A LITTLE BOY AROUND THE HOUSE

Little Mr. Three-Year-Old is always tagging after his father, always asking questions, always under his daddy's feet.

Whatever his father is doing, Mr. Three-Year-Old is always right there.

If that father is washing the car, or changing a tire, or pulling up weeds, or fixing the fence, or cutting a board, or driving in a nail, or cleaning the basement, or making a fire, or changing his clothes, or reading a book, or just sitting—

Mr. Three-Year-Old is on the spot. Asking questions, picking up bits of wood, demanding a hammer and a handful of nails for himself, wanting to know where that screw goes, or why his daddy is doing THAT.

He runs away with tools, he knocks over the paint, and his father has to watch him every minute.

With that child under foot, that man takes twice as long as he should to do anything. He must stop to answer those questions, and when one is answered he must think how to answer the next. He must leave his work to hunt up those tools that have strayed. It's one thing right after another when Mr. Three-Year-Old is around when a small boy asks questions his father MUST pay attention. It's a law.

If other people bother that man when he's working, he doesn't like it. If he has to leave his job and go into the house to answer the telephone, he growls about it. A man's chores are special and people ought to have sense enough not to break into them. But does he ever complain about Mr. Three-Year-Old? Does he ever call to the Lady of the House to get that child out of here because he can't do a lick of work while HE is around? Does he, or doesn't he?

Well, I'll tell you confidentially that he never does, he never did. Mr. Three-Year-Old is a privileged character. He can go anywhere, say anything, get under anybody's feet; what he does is big business and sacred—and his father wouldn't have him less of nuisance for a million dollars. What else can you expect when you have a little boy around the house?

One of the best things in the world for you to keep is your word. That's one thing people will respect you for keeping. Of course when you do give your word it should be like a bond or better.

Barbara, the little daughter of an East Side woman had been bad and had just been scolded by her mother. The mother told her that unless she became a good girl, mother was going to leave her and never see her again.

"What would you do if mother went away and never came back?" Barbara was asked.

Barbara was quick to retort, nonchalantly.

"Oh, I'd get me another mother, and make it a good looking one this time."

About the only time a motorist cannot blame the other fellow is when he runs into debt.

## TODAY'S STORYETTE

Uncle was questioning his young nephew about his school.

"Well, uncle," said the boy proudly, "I can tell you that if it wasn't for me my class wouldn't have any standing at all."

Uncle looked surprised.

"But I understand from your mother that you were always at the foot of the class," he said.

The boy raised his eyebrows.

"So I am," he replied. "And how could it stand if it didn't have a foot?"

When a man calls you a snake, don't get mad. Snake experts say that only one serpent in ten is even mildly dangerous. We wonder if man measures up to so high a standard.

An Ohio motorist, realizing he was drunk, went to the police station and asked permission to sleep off a jag until he was fit to drive his car. Most drivers when they get in that condition think they are Barney Oldfield and start out to demonstrate. It's time to clamp down on such birds.

The political conventions brought one boon, at least, to radio listeners. It prevented the horror of having to listen to a couple of hours of toothpaste, liniment, and beauty cream ads.

A friend of ours who was in Monroe, Mich., recently reports seeing a sign in a restaurant there, over the check-room door: "Keep Your Checks! Void If Lost!"

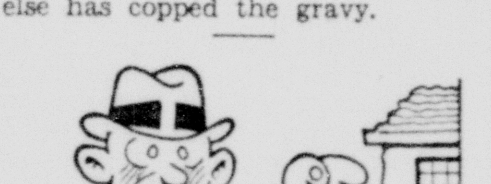

Girls are warned to stay away from New York if they do not have a job, friends or money enough to keep them a year or so. This holds good in most all big cities and boys are included in the warning.

Marriages are like snapshots—you can't tell how they are coming out until they are developed.

MECHANICAL COW  
It may be that such things are pretty common on large ocean liners but to one Whirligig correspondent the most amazing thing aboard the Duchess of Richmond, which docked here yesterday with 403 European vacationists, is a gadget that turns butter into milk. Back on the farm it's no trick at all to turn milk and cream into butter, but the vice versa is something else again, yet, a comparatively simple operation. It was impossible for a ship to carry fresh milk for a seven weeks' cruise, so they take plenty of butter and the ingenious device they call the mechanical cow and there is

plenty of fresh milk at all times. They place a quantity of butter in the contraption, mix water and poured milk and turn the crank. Out comes rich whole milk, or cream if desired, the latter being produced by putting in a greater quantity of butter.—Exchange.

These days, if a fellow thinks twice before he speaks some one else has copped the gravy.

If it is called a "cute" house, it is usually built to suit the eye instead of the climate.

## FATHER AND SON TALKS

Popper, how much money has Washington got to raise by new taxes?

"Between six and seven hundred million, my son."

"Is that a lot of money?"

"It used to be."

"What's the government got to have the money for, popper?"

"I'm a little confused myself, son, but I think five hundred million dollars of it is for wrong guessing?"

"Wrong guessing?"

"Yes, the administration guessed that the A. A. A. was legal."

"How is the government going to get all this money, popper? Isn't it a big problem?"

"Not any more."

"I thought the president said over the radio that there wouldn't be any more taxes."

"So did I. You'd better run out and play with the boy next door."

"But Popper, what are the new taxes?"

"The main one is on corporation surpluses."

"What is a corporation surplus, popper?"

"It's the money a corporation puts away for a rainy day."

"But isn't it all right to save the money for a rainy day, popper?"

"I dunno. I'm getting mixed up on things like that myself. Gwan outside and play, will ya?"

think that if the price of a drink of liquor had been put out at compound interest at the time of Queen of Sheba's visit to Solomon it would now amount to \$7,921,763.11."

"No," answered the prone one, "but I'm somewhat of a statistician myself and I'm telling you that if you aren't 121 feet from here in 9 seconds, I'm going to hit you on the nose 23 times and cause you to see 13,971 stars I have just had 5 teeth pulled at \$1.75 a pull and I'm in no humor for figuring."

Every day we hear of some ex-service man losing his bonus money, either by being stolen or some other way. The wisebody puts the cash in a good bank. There are people who would steal anything for anybody.

These days when a boy tells a girl that he loves her it's understood that it goes just for the evening.

One thing that should be stopped is the crazy serenader who runs their cars over the streets and blowing their horns or make some other unearthly noises. We have never seen a bride or groom that enjoyed the crazy antics of their alleged friends. If ever there was disorderly conduct it is the serenaders.

A wrestler has to do more than christen himself the "Terrible Turk" to gain the respect of his adversary.

The man who holds his head up suffers less when adversity assails him. A punch on the chin is never as painful as getting it in the neck, if one has his teeth clenched.

By FRANCINE MARKEL

By FRANCINE MARKEL

DEAR MISS MARKEL: I am going to entertain my club at a bridge-luncheon. I have a lovely garden. Could you suggest a way I might serve my luncheon and have my bridge out there?—HOSTESS.

Answer: Place your bridge tables on your lawn—to be used for both the luncheon and the bridge game following it. If you have any of those huge bright-colored umbrellas, by all means place one at each table to protect your guests from the sun and glare.

Have your tables set and ready for luncheon to be served when your guests arrive.

After your luncheon dishes and tablecloths have been cleared away your servant should bring out the cards (two packs for each table), a score pad, a pencil, a box of cigarettes, matches and an ash tray for each table, the last mentioned provided your guests have use for such.

Have on a side table a pitcher of ice water or lemonade, that thirsty guests may help themselves whenever they have the urge to drink. If you cannot conveniently do this, have your servant, in the midst of the game, serve these liquid refreshments from the kitchen.

If the weather is doubtful you will be forced to have your festivities indoors. Be sure to have your house in readiness for such an emergency. Copyright, 1936, by Watkins Syndicate, Inc.

Unemployment Still Problem.  
Proves Goblin To Both Parties.  
Interest Versus Inflation.

By LESLIE EICHEL

CENTRAL PRESS STAFF WRITER  
NEITHER REPUBLICANS nor Democrats met the relief problem squarely in their respective conventions. They skirted all around the basic issues of the unemployment question.

In spite of the best business conditions in six years—and in some industries the best business on record—unemployment remains at a high level.

Worse, states and municipalities and counties are failing to meet their relief responsibilities.

Relief may be a local issue, as critics of the New Deal assert, but persons dependent on relief do not believe so.

WHAT WAY?  
The noisy conventions in Cleveland and Philadelphia, of course, purposely avoided the basic unemployment issue. It is a scare goblin—just around the corner—for both parties.

The Republicans condemned, and much of what they said was true, yet offered merely the alternative that had failed—leave it all to unhampered business to find the way.

The Democrats would go on paying endlessly.

The Coughlin-Lemke party would put the making of money into the hands of the people.

How any of these hopes would eventuate into jobs for all is not explained logically.

The Socialists demand a planned economy, and every man to share in the resources and the earnings of industry and land according to his labor.

Some plan is essential, economists say. Otherwise, business itself will be the greatest sufferer.

## COST OF INTEREST

This will explain the cost of interest:  
Cleveland built a city hall 25 years ago. It issued bonds for the purpose in the sum of \$3,680,000.

All the bonds will not have been paid off until 1952.

The interest by that time will have amounted to \$3,706,000.

In brief, the interest amounts to \$26,000 more than the principal.

The city hall cost not merely the \$3,680,000 paid for the actual construction, but twice that sum.

He has been suggesting things to men ever since, for he discovered calculus, and he first showed that of two equal masses, "the first, if moving with double the velocity of the second, would overcome four times the resistance—in other words, that energy, the power of doing work, varied as the square of the velocity."

UNEMPLOYMENT  
We take these headlines from a bulletin of the Alexander Hamilton Institute:

"Employment up only 9.5 per cent since the low for the depression, while production has increased 21.2 per cent. Employment, however, held up better than production in 1930-32 slump. Consequently, despite the slower gain in employment since 1932, employment shows a decrease since 1929 than production. From now on gain in employment should keep pace with rise in output. Output, however, must rise above 1929 volume to absorb all unemployed due to increase in supply of workers and to the fact that there was considerable amount of unemployment in 1929."

Even in the "best" year the United States ever has observed, unemployment was high—perhaps the highest in the world.

"Maldistribution," economists say. And they add—maldistribution remains.

President Roosevelt made some mention of it in his Philadelphia speech.

## Hospital Aide Society Meets

Mrs. A. C. Hoyt Is Named As President Of Organization For Year

### CAMPAIGN PLANS ARE COMPLETED

At a meeting held by members of the Jameson Memorial Hospital Aide Society, at the home of Mrs. Alex Crawford Hoyt on Winter avenue, plans were rounded out for an extensive campaign for the hospital, which is already in progress. A little different means of securing the needed support in equipping this splendid institution with needed materials, is being exercised, with board members reaching residents by personal letter, and it is heartily felt that the response will be prompt.

Mrs. J. Norman Martin, organizer of the Jameson Memorial Aid Society, to whom the members feel greatly indebted for her faithful guidance and leadership, in all undertakings, was unanimously made president emeritus of the society. Mrs. Martin will continue to be active, and her constant association is greatly relied upon by the aid membership.

Mrs. James D. Crawford, retiring president, and first vice-president, is being succeeded by Mrs. Alex Crawford Hoyt, president. Other officers elected, includes the following: Mrs. Frank Douds, second vice; Mrs. J. C. Gillfillan, recording secretary; Mrs. Harold Gordon, assistant recording secretary; Mrs. D. C. Lindley, corresponding secretary; Miss Jennie Morgan, treasurer; Mrs. Reed S. McGowan, assistant treasurer. Elected members of the Executive Board, composes Miss Florence Henderson, Mrs. Fred L. Rentz, Mrs. Harry Marshall, Mrs. James W. Reis, Mrs. S. W. Perry, Mrs. Marcus Schuchwanger, Mrs. W. G. Eckles and Mrs. James T. Ray.

Eight appointed members are, Mrs. Walter Brahm, Mrs. Henry Rapold, Miss Mary Emma Hoyt, Mrs. George Carpenter, Mrs. John Foster, Mrs. James McIlvaine, Mrs. Charles Johnson, Jr., and Mrs. Le-Pere Matthews.

Of further interest, is the fact that plans were made to have a "Motorcade" to assist in transporting women in New Castle to and from the Jameson Memorial Hospital who wish to sew at the Wednesday morning meetings when announced, for the purpose of completing items and garments to be used in the institution. It is learned that there are a great number of women who desire to participate in this work which is conducted on Wednesday throughout each month, but who are unable to do so because of transportation facilities. Thus, anyone wanting to donate their services at the meetings announced, who wish transportation will be graciously accommodated by getting in touch with Mrs. James D. Crawford, 319 Locust street. It is hoped a large number will take advantage in this convenience, in assisting with the hospital sewing.

### MARGARET WALLACE GIVEN SCHOLARSHIP FOR SUMMER SCHOOL

Through the efforts of the King's Daughters of the First M. E. church, Miss Margaret Wallace, of North Crawford avenue, has been awarded a Chautauque scholarship by the Pennsylvania state organization of King's Daughters, and she left this morning for Chautauque, N. Y., to take up her studies.

Miss Wallace has been enrolled in three academic studies and a course in Bible. The scholarship includes all necessary expense for a six weeks course in the summer school. Miss Wallace has completed her second year at Thiel College.

## 'Mass Campers' Are Registering Today

Last-Minute Response Brings Host To Office; Scout Season Nears

Boy Scouts who expect to enjoy vacations at Camp John M. Phillips as "mass campers" beginning July 11 must immediately notify the scout office here, it was announced today.

The office indicated that a limit would be placed on the number of "mass campers" inasmuch as "troop camping" is to be conducted at camp Phillips at the same time. When the limit of 40 is reached, the registrations will be halted.

The office today received a group of applications and all signs pointed to a full camp on the opening day, Saturday, July 11.

Nicholas R. Casillo and his aides were busy today preparing the camp for season's inaugural.

## Tin Mill Parade Receives Praise

Ross L. Leffler Writes D. S. Pyle His Impressions Of Recent Parade

In a letter to D. S. Pyle, manager of the two plans of the Carnegie-Illinois Steel Corporation in New Castle, Ross L. Leffler, manager of industrial relations expresses his admiration for the parade of the tin workers held on Saturday, June 27. The letter which explains itself follows:

Pittsburgh, Pa., July 1, 1936. Mr. D. S. Pyle, General Supt., New Castle and Shenango Works, Carnegie-Illinois Steel Corp., New Castle, Pennsylvania.

Dear Mr. Pyle:— I wish to express to you my thanks for having invited me to attend your celebration on Saturday, June 27.

It was one of the most impressive sights that I have seen in my life to witness and I want to congratulate you and your organization on the splendid showing you made. From start to finish, the parade showed a very high standard of organization.

There was one particular feature that was very impressive. I do not believe that I have ever seen a group of ladies participating in a parade that made as fine a showing as your Assorted Room girls. I have seen many parades in various parts of the country, and I can say in all sincerity that you were the outstanding group, although with such a splendid array of floats and participants it was difficult to select one feature. They all deserve the highest praise.

Again thanking you and congratulating New Castle on having such a fine body of people, I remain, Very cordially yours,

ROSS L. LEFFLER.

## Express Fears Over Danzig

Complications On European Problems Are Likely As Demands Result

(International News Service)  
GENEVA, July 6.—Fears were expressed today that the demand by Dr. Arthur Karl Greiser, Nazi president of the Danzig senate, for virtual cessation of League of Nations control over the free city of Danzig, may complicate settlement of Europe's most pressing problems.

It was reported that Greiser, before making the speech which, with its accompanying incidents, caused an uproar in Saturday's league council session, had received instructions from Chancellor Hitler.

Because of this, statesmen here were less hopeful that the Locarno powers will be able to reach a general European settlement with Germany, particularly regarding Hitler's re-militarization of the Rhineland.

London, July 6.—Great Britain and France are ready to side with Poland in military action to forestall a Nazi coup d'Etat in the free city of Danzig, it was learned on reliable authority today.

Secret exchanges, it was established, have taken place between the French and British general staffs. Possibility of joint action under the League of Nations banner however, seemingly depends upon the true attitude of Poland toward Nazi aspirations.

There apparently is considerable doubt as to the Polish stand.

## WASHINGTON AT A GLANCE

### McCarl Gives New Deal Spank

Valedictory Address Denouncing Extravagance Of Emergency Set-ups Is Blow

### HAS KEPT SELF OUT OF POLITICS

Central Press Washington Bureau 1900 S Street By CHARLES P. STEWART Central Press Staff Writer

WASHINGTON, July 6.—John Raymond McCarl, retiring as comptroller general of the United States, landed about as severe a spank on the New Deal as well could have been imagined, with his denunciation of the extravagance of its emergency set-ups.

For one thing, McCarl spoke as a high authority. He has been administering government expenditures for 15 years, with presidents of both parties in the White House. He has handled his job honestly and competently. He has been called tight-fisted, but never a breath of scandal has been suggested in connection with his running of one of the least popular of federal offices, for its principal function has been the paring down of expense accounts.

Secondly, the comptroller general has kept scrupulously out of politics.

He expresses himself with no tinge of partisanship. For a decade and a half he has not said a word except through his official opinions. Republicans and Democrats have raged alike at what

he would not permit them to spend. He never has answered. After his long silence, his voice sounded like a thunderclap. And it was apropos, just as he was quitting—his valedictory.

**CONSTRUCTIVE** Another item: McCarl is not purely a fault finder. He did find fault, but he offered his services to aid in correcting the faults.

Congress is trying now to hit on a method of consolidating agencies and reducing governmental overlapping and duplication of expense. Of all individuals, McCarl is best equipped by experience to be helpful at this task.

There is little money in it for him. The most that can be made by the adviser to a committee on Capitol Hill is \$300 monthly. McCarl can beat that, many times over, practicing law.

**AS A CANDIDATE?** Ray McCarl, as I have previously remarked, was a little talked about as a 1936 Republican presidential possibility.

Governor Landon scored instead. Now McCarl is mentioned in connection with 1940.

I cannot see that he will rate as a candidate then.

**HIS CHANCES DIM** A presidential candidate must have been in the limelight. McCarl, momentarily, is.

If Landon is presidentially elected, maybe McCarl will be in line for a cabinet appointment.

That will keep him in the limelight. But in 1940 Landon will be in line for renomination; it will not be McCarl.

**NO BRIGHT PROSPECT** On the other hand, suppose President Roosevelt is re-elected.

In that event McCarl will get no cabinet appointment, and will not have a background in 1940.

In short, it is a gloomy prospect for McCarl.

If Landon is elected, McCarl will play second fiddle to him until McCarl is too old to count. If Roosevelt wins McCarl will have faded into obscurity before his chance comes again.

**AIDS LANDON** McCarl's utterance is a terrific slam for Roosevelt, anyway.

It is great campaign material for Landon.

It doesn't appear to be calculated to do McCarl any ultimate good. It is honest, but not particularly profitable, so far as appears, to McCarl.

children, hardest job on earth? They like to do it.

**RAILROADS TELL** The Interstate Commerce Commission they would like fares reduced to two and a half cents a mile, instead of two cents. The railroads should have all possible consideration, for they have built up this country, but at two and a half cents a mile they will not compete successfully with automobiles carrying passengers for one-quarter of a cent a mile.

Light rolling stock and high speed will make the railroad rights of way more valuable than the old railroads ever were. But this cannot be accomplished with cars weighing 200,000 pounds, carrying 4,000 pounds of passenger freight, at slow speed.

**NEW YORK PROPOSES** to fingerprint everybody, new babies included. The baby of the future will be busy, with fingerprinting, tonsil and appendix removal, vaccination for smallpox and half a dozen other diseases, readjustment of endocrine glands, mensendice setting up exercises (now practiced by the Yale boys), and perhaps trephining to relieve skull pressure on the brain when the skull is badly shaped.

An unfortunate depression, occurring frequently on top of the head, caused by a faulty closing of the baby's "soft spot" may have caused much trouble.

**FIRE-CHIEF FRANK GILLIAR.** Sleepless nights—catch-as-catch-can meals—nervous tension are all in line of duty for him. "Smoke? You bet I do," he says—"Camels. Camels put back into eating the joy that nervous strain takes out of it. I find that digestion goes along smoother. Camels set me right!"

Digestion proceeds smoothly... alkalinity is increased... when you enjoy Camels

Modern life hammers at our nerves and digestion. Camels restore and increase the flow of digestive fluids... alkaline digestive fluids... so vital to the enjoyment of food... so necessary for good digestion. You feel cheered and experience a sense of well-being. And Camels never jangle the nerves!

Enjoy Camels at will—with meals—between meals—for a refreshing "lift"—for sheer contentment. Camels set you right! And your taste does not tire of their mild flavor.

## On Court House Hill

The State Highway Department has decided to build the small stretch of road between Hillsville and Bessemer, according to the latest word received by the county commissioners. The distance is about a mile.

Hospital bills presented to the county commissioners for the month of June for the poor department amounted to \$2,866.96. Bill of the New Castle hospital was \$1,794.96; Jamison Memorial hospital, \$673.50; Ellwood City hospital, \$398.50.

County commissioners have as yet taken no action on the proposition to get two cannons for the court house grounds, but have it under consideration. The cannons would not cost the county anything but the transportation to New Castle. Most counties already have cannons on their court house grounds.

Care of the county's insane at the different institutions throughout the state, has become a serious burden on taxpayers, the bill for the month of June being \$8,110.82. For some reason there has been a large increase in the number of patients committed to these institutions during the past few years. Where the persons committed have no property or friends who are willing to pay the expense must be borne by the county. Usually a commission is appointed to pass upon the sanity of the person whom it is proposed to commit.

Judge and Mrs. J. A. Chambers have definitely decided to start on their Alaskan trip on Wednesday of this week. They plan to spend about five days in Yellowstone park. They will be nine days on the boat, going from Seattle to Alaska and returning. They have decided to make the return trip through Canada, and will be gone six or seven weeks.

County commissioners are planning to make some repairs and paint the cupola of the court house. They are waiting now on a steeple jack who will do the high climbing. Although it has not been definitely decided it is possible that the cupola will be painted with aluminum paint. The big clock will also

## ARE YOU DIZZY?

Full of Aches and Pains?

Probably your kidneys are clogged and can't rid your system of poisons.

There's no need to suffer from backache, rheumatic pains, dizziness, or to feel run down. Simply give your kidneys a thorough cleansing with Thompson's Barosma Tablets. They stimulate your system, help the kidneys, bladder and liver eliminate properly. Barosma Tablets bring back your pep and you say goodbye to aches and pains.

Golden-Lax Tablets are a fine laxative to use with Thompson's Barosma Tablets. Barosma Tablets 50c, Golden-Lax Tablets 25c, at New Castle Drug Co., and all drug stores.

be re-gilded and given such repairs as may be necessary. The cupola has been badly in need of repairs for several years. Pigeons and birds who have been roosting there feel that they have been slumming long enough and are entitled to the more abundant life.

There has been a noticeable increase of late in the number of deeds entered for record at the register and recorder's office. Some of these have been for properties sold, by the sheriff and are therefore no barometer of the real estate market, but it is a fact that the number of deeds given for actual sales of property, is showing steady improvement. In addition to deeds which are entered many properties have been sold on articles of agreement, and as a usual thing the articles are not recorded. If they were added to the actual transfers shown by the register and recorder's books, the movement of realty would be more apparent.

So many questions are asked Registration Clerk Thomas Edmunds, about the requirements for registration, that he has prepared a concise statement from which the following data is taken:

The elector must be a citizen 21 years of age.

The elector must be a citizen of the United States at least one month before election.

The elector must have resided in Pennsylvania one year (or having previously been a qualified elector or native-born citizen of the state, he or she shall have removed therefrom and returned, then six months' immediately preceding the election.

The elector shall have resided in his or her election district at least two months immediately preceding the election.

Every naturalized elector registering for the first time in any district, must produce his or her naturalization papers or a certified copy thereof.

All persons born in the United States are citizens whether or not their parents are naturalized.

No Japanese or Chinese is a citizen unless born in this country.

A woman who is a citizen does not lose her citizenship by marrying a foreigner not naturalized. This is the law since September 22, 1922.

## DAM TO MEASURE FLOW OF PYMATUNING

SHARON, Pa., July 6.—Mayor J. Fred Thomas today announced that council has awarded a contract for drilling three test holes at the site of the proposed dam across the Shenango river.

The dam has been proposed by the State Department of Forests and Waters so that accurate readings of the river flow can be made to determine the amount of water which should be released from the Pymatuning reservoir during dry periods, for use of Shenango valley industries.

OUT IN AFRICA WHERE I COME FROM, THE TEMPERATURE HITS 120°, WITH THE HUMIDITY AT 90°. TEA IS WHAT KEEPS US GOING. NOTHING ELSE WILL DO! IT'S MORE THAN A COLD DRINK. IT KEEPS YOU COOL

THIS ISN'T AFRICA, BUT OUR CITY GETS HOT AND HUMID TOO, AND I AGREE THAT NOTHING IS AS LASTINGLY COOLING AS A LONG COLD GLASS OF ICED TEA

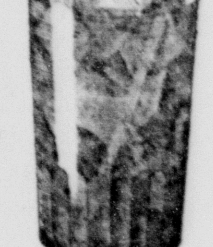

• Doctors have proved that tea actually lowers your body temperature. That cooling effect is not a delusion. Your body becomes literally cooler.

The next time you want a really cooling drink... not just a "cold drink"... turn to tea. It raises your vitality. It quenches your thirst. And it helps combat the hottest day and the worst humidity.

Cooling, vitalizing Tea comes from INDIA, CEYLON, and JAVA-SUMATRA. Buy a good brand of Orange Pekoe, and look for any of these names or this map on package or in advertising.

## School Reunion Joys Anticipated By Herb McIlvenny

School Board Member Looks  
Forward With Expectancy  
To Greeting Former  
Classmates

Just what the coming school reunions of the old Reynoldstown, Mullentown, Slabtown, Mahoningtown and Martin Gantz groups means to former students at these schools in years gone by, is ably expressed by J. Herb McIlvenny, member of the local school board, when he writes of the anticipation with which these events are held by the old timers of the city.

Mr. McIlvenny, in issuing a call to all the school reunion groups, writes as follows:

**School Reunions.**

"Another year rolls on and again we hear the clarion call for the annual gathering of the clans—of all the gatherings of the clans. What can be more soul inspiring than those of the school clans of Lawrence county? Nothing, to my mind, can compare with the reunions of the boys and girls of yesterday. School days—what a thrill it imparts to our memories, when we recall those golden days of our school days and what a joy fills our hearts when we look forward to the day once each year when we can again renew our boyhood and girlhood days of long ago.

"So once again we issue the call to you of Mullentown, Reynoldstown, Slabtown, Mahoningtown and dear old Martin Gantz. To those of the present generation, these names may be strange, but to the old timers it means happy memories and if we mention the further sub-divisions of Rhinetown, Middletown and Crowtown and Phillipsburg, they would wonder what manner of people inhabited New Castle in the gay nineties. Well, boys and girls of today, your dads and moms were the boys and girls that made it possible for you to enjoy and profit from the wonderful school days you now enjoy. Some day you will look forward with the same keen anticipation as we do to the day of days, the gatherings of the clans and to you boys and girls who have wandered far afield from the boundaries of staunch little Lawrence county, we, the home guards, extend to you our most hearty and loving invitation to meet with us this year and renew the friendships of yesterday."

"The Mullentowners will gather together at Cascade park on July 22. 'Martin Gantz' at the Christian church on August 19. You will be advised later by the secretaries concerning the others.

"Now we want you to make a special effort to meet with us this year. You know we grow no younger and as time and tide wait for no man, if you wait until next year it may be too late, so make an effort to experience this thrill of thrills if you haven't done so yet.

"There is one school in this town that I have often wondered why they don't inaugurate these reunions. Boys and girls that we knew, fought and played with and with which we have cemented life-long friendships, who have not as yet got together in this annual meeting of the clans. I refer to the lads and lassies of old St. Mary's. You boys and girls of St. Mary's don't know what you are missing. Why not organize and become a member of the school reunion clan, then you can say with the others:

"I cannot remember when Nero was born.  
Nor when was the Delaware crossed  
Nor even the date when Eve met the snake  
Nor Mary's poor lambkin was lost;  
In fact I have forgotten a number of things  
That historians point to with pride,  
But—here are the friends, I'm glad to relate  
I couldn't forget if I tried.  
So we are hoping to see you all."  
Still yours,  
J. HERB—TH' SCRIBE.

## AROUND CITY HALL

Saturday afternoon traffic was far greater than Sunday morning traffic according to observers. From 2 p. m. Saturday a steady stream of cars moved through East Washington street. However, most of them apparently exercised caution, likewise Saturday night and Sunday night, no serious accidents were reported to city police.

Mayor Charles E. McGrath's warning that the exploding of fireworks at Cascade Park would meet with arrest, had its effect. No trouble along this line was experienced. In fact, only one request for police service was received by police and this was caused by the appearance of an intoxicated man in the recreation center.

Practically all the automobiles stolen during the past few weeks have been recovered by city police. Fourth of July night was quiet in police circles. Traffic lines on the south side of the Diamond will be painted soon. A traffic light with a left turn arrow will be erected soon as it is purchased.

comic strips for their better mental health and parenthood. From the funny page parents can learn about their own human frailties, and learn to laugh at themselves with their children. Thanks to the comic strip, when read by parents, fewer children will be needlessly chastised or unjustly punished; there will be more jokes and laughing at the dinner hour, followed by a happier evening around the fireside.

"When the father reads the funnies to his little pre-school child there grows up a delightful parent-child companionship. And as the child grows older he and the parents who read the funnies have in common a vast deal of wholesome merriment.

"As a means of motivating silent reading in the child of the primary grades, nothing has surpassed the comic strip for effectiveness. Two of my own children, slow to acquire skill at reading in the first few years at school, took a tremendous spurt in reading progress once they discovered they could read the comic strip alone. Incidentally I wish more of the funnies were actually funny."

## Mid-West Has New Heat Wave

Drought Continues To Wreak Havoc With Crops In Northwest States

### TEMPERATURE GOES TO 110 IN NEBRASKA

(International News Service)  
CHICAGO, July 6.—While a blistering sun ravaged further the once-fertile fields of the drought-stricken northwest, farmers today stood by helplessly, as their crops slowly were being roasted into ruin, and could do nothing but pray that a kind providence would send the long-awaited rains.

But the torturous temperatures of the week end—in some states the mercury soared well over 100 degrees—seemed destined to stay, with hot air currents driving in from the Pacific over the whole area. In Chicago, the weather bureau said there was no sign of rain "for two or three days at least."

**Suffer From Heat**  
Montana, Wyoming, the Dakotas, Minnesota, Kansas, Missouri, Nebraska, Colorado, Iowa and Indiana all suffered from the heat wave during the week-end, and in many communities prayers were raised, begging for the quick end of the drought.

In Nebraska, the thermometer reached the all-time peak of 110 degrees while in Sioux City, N. D., the record also was smashed by a 110 reading. It was 108 in Des Moines, Iowa and 109 in Sheridan, Wyo. Canton, Ill., registered 107.

In the meanwhile, grain operators here looked back on five days of trading that moved prices substantially ahead on all fronts, climaxing the advance with two sessions that saw the heaviest action in months.

The crop and weather reports were responsible for the big drive, which withstood a huge amount of week-end profit-taking.

The bull-market first hit its real stride Friday, June 26, when reports of millions of acres of lost spring wheat, due to drought and plant diseases, arrived from three states. Counting gains made that day and continuing through last Friday's session, wheat values forged ahead better than ten cents.

## Watson Is Given Student Pilot's Flying License

Another New Castle Man Joins Local Corps Of Licensed Birdmen

(Special To The News)  
WASHINGTON, D. C., July 6.—New Castle's family of fliers has been increased by one, it was learned here today when the Bureau of Air Commerce announced that a student pilot's license had been granted to a New Castle man.

He is Harry T. Watson, 346 East Washington street, whose student pilot license, as granted by the department permits him to fly anywhere in the United States, even to make a cross country flight.

However, on a cross country flight he can't land at any flying field he wishes. If the field is being used for flying meets or races, or if it is the terminus of a regularly established air line, the New Castle student pilot cannot use it.

He can have only a regularly licensed instructor as a flying companion. The license runs for two years, during which time he must amass enough solo hours to make him qualify for a higher rating at the Commerce Department.

# PRESIDENT RETURNS FROM VIRGINIA TRIP

## Official Family Problem Faced

Expect Farley To Step Out Of Cabinet—Was With Roosevelt On Trip

McCARL'S SUCCESSOR ALSO TO BE NAMED

(International News Service) WASHINGTON, July 6.—The White House yacht cruised up the Potomac river this morning to the Washington Navy yard, bringing President Roosevelt back from a three-day tour of Virginia's historic spots to deal with the problem of making major replacements in his official family.

Today, the deferred announcement concerning Postmaster General James A. Farley's future status finally was expected. Farley, who accompanied the president for the first two days of his Virginia trip, had a white house engagement. He indicated in Richmond Mr. Roosevelt probably would have something to say during the course of the day—and, according to best information, it will be that the presidential campaign manager is to be given an indefinite leave of absence from the cabinet.

This would leave first Assistant Postmaster General W. W. Howes as acting head of the department until after election, at which time, if the Democratic ticket is successful, Farley could return to his cabinet post.

Choice of a successor to John R. McCarl, whose 15 year term in the all-important job of comptroller general expired a few days ago, also was concerning the president.

Some administration sources were predicting the executive would leave this post unfilled until after election, just as he apparently has decided to do with two U. S. circuit judgeship vacancies.

## Akron Balloon Winner Of Race

Goodyear X Of Akron Declared Unofficial Winner Of National Balloon Race

CLEVELANDERS FINISH SECOND

(International News Service) DENVER, July 6.—Aviation and ballooning enthusiasts here were amazed today to learn that the Goodyear X of Akron, Ohio, winner of the 1936 National Balloon races, had landed Sunday at 1:30 p. m. in a field near Fresno, S. D., 385 miles from Denver.

The giant bag, piloted by Frank A. Trotter and his assistant, Verne Smith, previously had landed near Sterling, Colo., and had been proclaimed winner on the strength of a flight which took it 115 miles from the starting point.

An examination of the balloon's barograph by the National Aeronautic association in Washington, D. C., will determine which of the distances will be officially recognized. Racers are permitted 15 minutes for such stops. While Trotter declared he believed he was on the ground less than 15 minutes near Sterling, this must be determined officially by examination of instruments.

The Cleveland Great Lakes entry apparently placed second, having landed in a field about 100 miles east of Denver.

Art Chester of Glenview, Ill., was crowned king of air racers in the airplane speed contest held in connection with the takeoff of the balloons. He won the 50-mile race for the second successive day Sunday.

Col. Roscoe Turner failed twice to break the International record of 295.969 miles per hour for 100 kilometers, a balked oil line holding his 1,000-horsepower racer to 261.586 miles per hour in the second trial.

# Bond Theft Ring Believed Smashed By Federal Agents

(International News Service)  
NEW YORK, July 6.—An alleged international bond theft syndicate, whose operations extended to capitals of three nations, was believed smashed today with arrest here of five "big shots" of the ring by g-men and recovery of \$200,000 in stolen securities.

The five prisoners, who were to be arraigned on charge of violating the national stolen properties law, included Morris Roisner, 45, of St. Paul, Minn., beer and liquor store operator who already is under indictment in connection with the kidnaping of William A. Hamm, Jr., in December, 1927. Hamm's abduction was cleared up by department of justice agents.

**Former Convict Held**  
The other prisoners were Dave Burman, New York parolee from Sing Sing a year ago with the stamp of "model prisoner"; Benjamin Espy, of Brooklyn, and Jack Greenberg and Moe Sedway of New York.

The \$200,000 in bonds, found in a bag checked at Grand Central Terminal on Friday, was placed there by Roisner, federal agents charged. It was part of the \$1,500,000 in United States treasury certificates owned by the bank of the Manhattan Co. and stolen here in January, 1935, from a broker's office.

where a messenger who had just delivered them was awaiting a receipt.

With recovery of the \$200,000, federal agents have recovered \$950,000 out of a total of more than \$2,000,000 stolen in two "phantom" robberies from the bank of the Manhattan Co., and the United States Trusts Co., in December, 1934.

## Title Games To Start Tuesday

American Legion Junior Team Will Play Elimination Series Starting This Week

HAVE IMPROVED TEAM THIS YEAR

Tuesday evening at George Washington field, the American Legion Junior team, sponsored by the Perry S. Gaston Post, will start the elimination series which may land them in the state finals, when they meet Sharon's American Legion Junior team at George Washington field. The game will start at 5:30 p. m.

Last year, Sharon nosed out the locals for the district championship, but the local team this year is a much improved one. Mike Coates is the ace hurler of the local staff, and in the game Fourth of July morning, had 20 strikeouts against the East Palestine nine, but lost the decision 2-1.

The games which start this week are for the Northwestern Pennsylvania honors, New Castle being the winner of the 26th district title, while Sharon has won the honors in their district.

The members of the post and a large crowd of rooters are backing the local team to win and a large crowd will be out to witness the game Tuesday evening.

the Young Cubs. All of the games will be played at Dean Park field, with the exception of the Stratford game and it will be played at Centennial field. The Shenangos defeated the Duke A. C. 12 to 3 at Viaduct field.

All members of the First Presbyterian church softball team are asked to meet at the office of "Doc" Prugh tonight at 7 o'clock for an important business session. The second half of the church softball league will open on Tuesday.

Gersons of the Class B Softball League will play the National Pants factory team at the Gaston Park field tonight. The game will serve as a warmup for the league opening on Tuesday night with the Shenangos. Wednesday the Gersons will meet the Mt. Jackson team; all of these games will be played at Gaston Park. The Gersons handed the Mt. Jackson team a 15 to 13 defeat last Friday night at the Mt. Jackson field. Thursday the Gersons will meet the East Side Merchants at Rose avenue, and Friday the Castle Smacks at Gaston Park.

The Bonnetts of the City Softball League journeyed to Farrell Sunday afternoon and lost a close one, 8 to 7, at the hands of the Felix team. The Farrell boys won the game in the last of the ninth on enough hits to produce six runs. Sammie Pezzone did the hurrying for the Bonnetts after relieving Dwyer. Novacool was the hurler for the Farrellians and was relieved by Woppe. Ray Must, Lewellyn and Koltz did the heaviest hitting.

## HERE AND THERE IN SPORTS' LAND

In a rough game in which all the scoring was packed into the first half, the Los Angeles Athletic club water polo team beat New York Athletic club, three to one, at Chicago yesterday and qualified as the nation's representative in the Olympic games in Berlin. At Princeton, N. J. the University of Washington oarsmen sped through Lake Carnegie to win in the final tryouts and qualified to defend Uncle Sam's four times won honors against the eights of the world in the Olympics. Washington led the University of Pennsylvania across the line by one length. At New York the American Olympic committee reached a crisis, being approximately \$150,000 still short of the minimum Olympic fund goal. The personnel of several teams has been cut. Among the teams in need was the men's gymnasts and the women's swimming team. The former needs \$2,000. George Wheeler, Pittsburgh, may not be able to go with the team unless this sum is raised. The women's swimming team, of which Lenore Kight Wingard, formerly of Homestead, now of Cincinnati, is a member, is in need of \$9,000.

## SPORT SHORTS

Shenango Middlets softball team has a busy schedule this week. Tuesday the meet the Superiors at Dean Park field. Thursday the Miller avenue team, Friday the Stratford A. C., and next Sunday

**My New York**  
By James Aswell

Copyright, 1936, Central Press Association  
NEW YORK, July 6.—I am bombarded with all manner of queer literature and invitations to join fantastic organizations, but this letter from Jack Woodford, an old writing acquaintance of Richmond, Va., now scribbling in Hollywood, takes the 1936 prize. Perhaps we are to be treated to a long series of satirical organizations, with the example of the League of Veterans of Future Wars before us; in any case the following epistle is a lush slice of 1936 Americana.

"Dear Mr. Aswell:  
"I know you will be happy to learn that our field representatives, returning from an intensive survey of the United States, report that the censorship upon sex—toward publishers, producers and the radio—has completely abolished sex in the United States.

"However, there is, unfortunately, a great deal of Murder, Theft and Violence going on, due to the fact that it has been consistently overlooked by censors that these things are immoral, too. Obviously, if a censorship upon sex toward literature and the drama can abolish sex in life, a similar censorship leveled against Murder, Theft and Violence can abolish these vexatious matters.

"This censorship organization is a non-profit one. None of its officers will receive pay; no funds of any sort will be collected in any way.

"Those persons who habitually align themselves with reform organizations will be permitted to align themselves with this one only after they have submitted a sworn statement from a recognized psychologist to the effect that their I. Q. is above that of a child of fourteen.

"The insignia of the organization is a white ribbon with an ink stain upon it; the yell is 'Down with Murder! Down with Theft! Down with Violence—till nothing's left! You are hereby authorized to wear the insignia and utter the yell at any time.

"The organization uniform is a white cotton nightgown worn over the clothing, with a pink lily embroidered over the heart; members

in greeting each other raise the arms tautly above the head with hands crossed, as though about to dive.

"In view of these facts the Author's Purity League feels that it is your bounden duty to give whatever moral support you can.

"Also, we should like to list you upon the next letterheads as the official organization historian.  
"If you will write me permission to do this I should be much gratified; the next letterheads will contain forty-two names of directors, all of them in 'Who's Who,' a famous psychiatrist as official psychologist; a well-known lawyer as counsel, and a popular clergyman and writer as chaplain. An internationally known doctor, author of several medical books for lay reading, will appear as staff physician.  
"Sincerely yours,  
"Jack Woodford."

The ironic jape of Mr. Woodford's letter indicates that he is pestered with the strictures upon the films by censors. Unfortunately I am unable to get excited about the stringency of movie, radio or drama censorship. In the case of the drama, there isn't any censorship and in the matter of movies and radio I have never been aware of any loss through lack of daring.

Indeed, I have the feeling that if the entire cinema career of that leading exponent of sex in the movies, a middle-aged lady named Mae West, had been choked off by the censors, the progress of the movies as art and entertainment would have been impeded none at all.
